

THE BULLETIN OF MILLSAPS COLLEGE

Summer Session *Courses* **1941**

FIRST TERM MAY 30-JULY 5
SECOND TERM JULY 7-AUG. 9

VOLUME 4 FEBRUARY, 1941 NUMBER 2

PUBLISHED MONTHLY DURING THE COLLEGE YEAR BY
MILLSAPS COLLEGE IN JACKSON, MISS.

ENTERED AS SECOND CLASS MATTER NOVEMBER 21, 1916 AT THE
POST OFFICE IN JACKSON, MISS., UNDER THE ACT OF CONGRESS

Millsaps College

Summer Session 1941

Officers of Administration

Marion Lofton Smith.....Millsaps Campus 3-1437
A. B., Kingwood College; B. D., A. M., Emory
University; Ph.D., Yale University.

President

Ray Sigler Musgrave.....Millsaps Campus 2-3475
A. B., Bethany; M. A., Ohio Wesleyan; Ph.D.,
Syracuse University.

Director of Summer Session

William Emil Riecken.....625 Broadway 2-3802
B. A., M. A., Ph. D.; Indiana University.

Dean

George Lott Harrell.....812 Arlington 2-0963
B. S., Millsaps College; M. S., Millsaps Col-
lege; Graduate work, University of Chicago.

Registrar

Vernon Burkett Hathorn.....512 Marshall 4-8213
A. B., Millsaps College.

Bursar

Calendar

First Term

May 30th, Friday—Registration
May 31st, Saturday—Classes Begin
July 4th, Friday—Independence day; Holiday
July 5th, Saturday—Final Examinations for the
Term

Second Term

July 7th, Monday—Registration for New Stu-
dents and beginning of Classes for Second
Term
August 8th, Friday—Summer Commencement
August 9th, Saturday—Final Examination for
the Term

Faculty

Frances Elizabeth Decell.....1021 Euclid
A. A., Whitworth College; B. A., Millsaps Col-
lege; M. A., University of Alabama.

Physical Education and Recreation Leadership

Herbert Safford Emigh.....1134 N. West
B. A., University of Mississippi; M. S. Univer-
sity of Mississippi.

Chemistry

Charles Betts Galloway.....304 N. Congress
B. S., Millsaps College; M. A., Duke Univer-
sity; graduate work, Duke University.

Physics

Alfred Porter Hamilton.....77 Belhaven
B. A., Southern University; M. A., Ph. D.,
University of Pennsylvania.

Latin and German

Robert Raymond Haynes.....Millsaps Campus
B. A., University of Tennessee; LL. B., Uni-
versity of Tennessee; Vice-Consul of the
United States in Scotland and England; M. A.,
George Peabody College; Graduate work,
George Peabody College.

Education

Edith McIntosh.....917 Arlington
A. B., University of North Carolina; A. B.,
Library Science, University of North Car-
olina.

Library Science

Benjamin Ernest Mitchell.....727 Arlington
B. A., Scarritt-Morrisville; M. A., Vanderbilt
University; Ph. D., Columbia University.

Mathematics

Ross Henderson Moore.....1711 Edgewood
B. S., Millsaps; M. S., Millsaps College; M. A.,
University of Chicago; Ph. D., Duke Univer-
sity.

History

Ray Sigler Musgrave.....Millsaps Campus
A. B., Bethany; M. A., Ohio Wesleyan; Ph. D.,
Syracuse University.

Psychology

Robert Paul Ramsey.....Millsaps Campus
B. S., Millsaps College; graduate work, Yale
University.

Philosophy and Speech

Edmund F. Ricketts.....3936 N. State
A. B., A. M., University of Illinois; graduate
work, Howard University.

Economics

William Emil Riecken.....625 Broadway
B. A., M. A., Ph. D., Indiana University.

Biology

Millsaps College

Albert Godfrey Sanders.....735 Arlington
B. A., Southwestern (Texas); B. A. Yale University; Rhodes Scholar 1907-10; B. A., M. A., University of Oxford (Honors School).

Spanish and French

John Magruder Sullivan.....2 Park Ave.
B. A., Centenary College; M. A., University of Mississippi; M. A., Vanderbilt University; Ph. D., Vanderbilt University; graduate work, University of Chicago.

Chemistry

Virginia Thomas.....302 McTyere
B. A., Grenada College; B. A., University of Mississippi; M. A., Northwestern University, graduate work, Columbia University.

Religion

Elbert Stephen Wallace.....308 McTyere
B. A. Birmingham-Southern; M. A. Duke University; Ph. D., Duke University.

Economics

Vernon Lane Wharton.....520 N. State
B. A., Millsaps College; M. A., Ph. D., University of North Carolina.

Sociology

Milton Christian White.....1715 Edgewood
B. A., Southern University; M. A., Harvard University; Ph. D., University of Wisconsin.

English

Millsaps College

Summer Session 1941

The thirtieth annual Summer Session of Millsaps College is scheduled to begin on Friday, May 30, and close Saturday, August 9th. The Summer Session is an integral part of the College's program. The standards of academic and professional achievement are equivalent to those of the regular session. The courses offered and the instructors are the same as for the fall and spring semesters. Credit obtained is fully recognized toward the baccalaureate degrees which the college confers.

Millsaps College is fully accredited by the Southern Association of Colleges and Secondary Schools. It holds membership in the Southern University Conference, the Mississippi Association of Colleges, the Association of American Colleges, and the American Council on Education. It is on the approved lists of the Association of American Universities and of the American Association of University Women.

Location of the College

Millsaps College is conveniently located in the northern part of Jackson—the Capital City—and in the center of a beautiful residential section. Standing on one of the highest points in the city, with the college golf course forming part of the campus on the north, the students taking summer work at Millsaps find it one of the coolest places in the city. All other points in Jackson are easily accessible by bus, since two different lines pass the campus. Livingston Park, with an excellent lake for swimming and extensive facilities for picnicking, is one of the favorite haunts of summer students and faculty alike during the afternoon hours.

Many educational advantages may be found in Jackson in addition to the courses offered at the College. The State Department of Archives and History, the State Library, the Library of the State Department of Health, and the Jackson Public Library provide research facilities found nowhere else in the state.

Purpose of the Millsaps College Summer Session

The Summer Session courses are planned primarily to serve the following groups of men and women:

1. Teachers in service who wish, while teaching, to advance toward a college degree.
2. Teachers who desire to secure, extend, or renew licenses. Millsaps College and its work are fully approved by the State Department of Education.
3. College graduates who lack the required number of hours in Education for a teacher's license and who desire to make up some of these hours.
4. Those who wish to do college credit work toward the undergraduate degree of A. B. and B. S. Many students who live in Jackson and vicinity but attend other colleges during the winter take summer work at Millsaps. In this way they can live at home and still carry on work toward a degree.
5. Mature individuals who hold regular jobs in Jackson and who wish to add to their college work by taking an early morning class before going to work.
6. All persons qualified to pursue with advantage any course offered whether or not their other activities are primarily study or teaching.
7. 1941 High School Graduates.

An opportunity for High School graduates to start their college work is offered in the Millsaps College Summer Session. Although many High School graduates will not make plans to enter college until September, more and more students are considering the Summer Session as an adjustment period between High School and College.

The student may carry one or two subjects and have plenty of time for study; he learns what college work is like without carrying too heavy a load; he may lighten his freshman load from three to six hours a semester in the regular term. This is especially advantageous to students who expect to work during the regular term to defray a part of their college expenses.

8. Millsaps students who wish to complete work for a degree in less than the usual four year period. Degrees are conferred at the end of the Summer Session upon those students who complete the requirements during the summer.

Admission

Admission of any student to Millsaps College for work in the Summer Session is dependent upon his meeting the general requirements of good character and adequate preparation. Students may be admitted in the following ways:

1. By presentation of a certificate of graduation from an accredited high school.
2. By examination.
3. By presentation of a transcript of work done in a recognized Junior College or Senior College.
4. As special students. Mature individuals, even though not high school graduates, may be admitted to classes upon presentation of evidence of adequate preparation for the specific courses for which they desire to register. It should be expressly understood that no special student shall be recognized as a candidate for any degree from Millsaps unless he shall have completed all entrance requirements at least one year before the date of graduation.

Transcripts of students coming to Millsaps College for the first time should be sent to the Office of the Registrar at least two weeks before the opening of the session.

Hours of Work Permitted

The usual schedule of work is six semester hours per term. Thus a student attending both terms—two five-week terms—may earn twelve hours of

Millsaps College

credit toward a degree. Students attending only one term—a period of five weeks—may earn six hours credit.

Classes will meet for a period of one hour and twenty minutes each day, Monday through Saturday.

Registration

Registration dates for the 1941 Summer Session are: First term—Friday, May 30th; Second term—Monday, July 7th. Registration will be held in the Registrar's office located in Murrah Hall. For late registration—that is, registration after Tuesday, June 3rd for the first term and Tuesday, July 8th for the second term—a late registration fee of \$2.00 will be charged.

Students attending the first term of the Summer Session may register for the second term during the week of June 30th to July 5th. All changes in courses must be made in the Registrar's office.

Schedule Changes

The college reserves the right to withdraw a course when the registration is not sufficient to warrant its continuance; and to change instructors when necessary. Additional courses may be organized if the demand is sufficient.

Attendance

The regular class work will begin promptly on the morning of Saturday, May 31. Instructors will exclude from class all students who have not secured their class admission cards from the Registrar's office, properly endorsed by the Bursar.

All work missed must be made up. Students are expected to consider their class meetings as business engagements and to be prompt and regular in attendance. The privilege of taking the final examination will be withheld from students having excessive absences, although they may continue to attend classes as auditors.

Friday, July 4th, will be granted as a holiday and no classes will be held.

Millsaps College

Fees and Expenses

TUITION

Fee for four semester hours or less;	
each hour	\$ 5.00
Fee for five or six semester hours	20.00

Special Fees for All Students

Matriculation fee	\$ 5.00
Library fee	3.00

LABORATORY FEES

The following fees are charged in the courses designated:

Biology 11-12	\$ 10.00
Biology 72	5.00
Biology 82	5.00
Chemistry (each semester course)	5.00
Geology	3.00
Physics 11-12	10.00
Physics 21-22	10.00
Lab. breakage deposit (per semester course) ..	1.00
Unused portion of breakage deposit returned.	

DORMITORY FEES

Room for women, New Dormitory	
(per term)	\$ 10.00
Room for men, Burton Hall (per term)	10.00
Deposit for key to dormitory room	1.00

SUMMARY OF FEES AND EXPENSES

	One Term	Both Terms
For day students		
Matriculation fee	\$ 5.00	\$ 5.00
Tuition (6 hours one term;		
12 hours two terms)	20.00	40.00
Library fee	3.00	3.00
Total expenses for day		
students	\$ 28.00*	\$ 48.00*
For dormitory students—	One Term	Both Terms
Matriculation fee	\$ 5.00	\$ 5.00
Tuition (6 hours one term; 12		
hours two terms)	20.00	40.00
Library fee	3.00	3.00
Room	10.00	20.00
Board (approximate)	20.00	40.00
Total expenses for dormitory		
students	\$ 58.00*	\$ 108.00*

*Laboratory fees for students taking science courses should be added to these totals.

Board and Room

Out-of-town students may find room accommodations in the college dormitories. Each room is provided with a table, chair, chest of drawers, and bed with mattress and springs. Students furnish pillows, pillow cases, sheets, towels, blankets, and toilet articles. A key deposit of one dollar is required of each dormitory student. Deposits will be refunded at the end of the session when the key is returned to the Bursar's office. Students expecting to room in a dormitory should make reservations by sending to the Bursar a deposit of \$5.00. This deposit will be applied to the room rent charged. Dormitory rooms may be occupied on Friday, May 30th.

Room and board for men and women may be secured in private homes near the campus at very reasonable rates. Individuals desiring such accommodations should communicate with the Bursar in advance of registration.

Cafeteria

The College Cafeteria, located in Galloway Hall at the south end of the campus, is operated for the benefit of the students and their friends during the summer session. Meals may be obtained there at very reasonable rates. A student can eat at the cafeteria for approximately twenty dollars per term.

Convocations

A convocation will be held once each week during the Summer Session, at which attendance will be expected of all students. Special speakers at these convocations will supplement the educational and cultural values of the program of regular courses.

At the final convocation for the second term degrees will be conferred upon those students who complete all graduation requirements during the Summer Session.

Consultation and Educational Guidance

It is the desire of the administration of Millsaps College that each student receive individual attention. Members of its staff and faculty will be glad to serve as educational counsellors, discussing with students any problems that may arise in connection with their college work and vocational choice.

Recreational Facilities

Millsaps College and Jackson are rich in facilities for recreation and entertainment. Tennis courts, badminton courts, and volley ball courts are conveniently located on the campus. The college golf course is open to students upon payment of a nominal green fee.

Livingston Park on the west side of Jackson, and a number of lakes within easy driving distance, afford excellent facilities for swimming and picnicking. Saddle horses may be hired by the hour at a very reasonable rate by making arrangements with a local riding academy.

A full schedule of recreational and sports events is planned in advance for each term of the Summer Session. These activities are under the supervision of a member of the Summer Session faculty and all students are urged to take part.

Description of Courses

Note: Any course may be withdrawn if less than 6 students apply for admission, and other courses may be added if there is sufficient demand.

Biology

BIOLOGY s11—General Botany

The first semester covers a survey of the seed bearing plants, presenting the fundamental principles of living plants, their structure and physiology.

Three hours credit. First term.....Dr. Riecken

BIOLOGY s12—General Botany

The second semester includes the development of plants and their reproductive cycles from the lowest forms through the highest.

Three hours credit. Second term.....Dr. Riecken

BIOLOGY s72—Taxonomy

Collecting, classifying and mounting of flowering plants which are found in Mississippi. Skill is developed in the use of a key in identifying plants. Students will learn to know many plants, and develop a technique of identifying new plants.

Three hours credit. Second term.....Dr. Riecken

BIOLOGY s82—Tree Study

Three hours credit. First term.....Dr. Riecken
Similar to Biology s72 but the course is confined to learning trees and shrubs of Mississippi.

OR

BIOLOGY s52—Heredity or Genetics

A course in the inheritance of plants and animals with purposes and methods of breeding and crossing. Emphasis is given to the relation of inheritance to our present social problems.

Three hours credit. Second term.....Dr. Riecken

Chemistry

CHEMISTRY s31—Organic Chemistry

A study of the open-chain compounds, and methods of organic analysis and determination of formula. Special attention will be given to the alcohols, aldehydes, acids, amines, cyanogen compounds, carbohydrates and other derivatives. The study of relationships as shown by rational formula will be established. Incomplete without Chemistry s32.

Two hours credit. First term.....Dr. Sullivan

CHEMISTRY s32—Organic Chemistry

A study of the cyclic compounds. The purpose of this course is to furnish a somewhat comprehensive knowledge of the carbon compounds, the instruction being given chiefly by lectures illustrated by experiments. Some attention is given to physiological chemistry. Pre-requisite, Chemistry 21-22. Lectures and recitations.

Two hours credit. Second term.....Prof. Emigh

CHEMISTRY s41—Qualitative Analysis

Laboratory individual tests for metals, a known, and unknown for each of the groups of metals. Pre-requisite, Chemistry 21-22, General.

Two hours credit. First term.....Prof. Emigh

CHEMISTRY s42—Qualitative Analysis

Laboratory individual tests for acid radicals, a known and unknown for each of the groups of acid radicals (non-metals).

Two hours credit. Second term.....Prof. Emigh

CHEMISTRY s51—Experimental Organic Chemistry

Experiments in purification of organic compounds, determination of physical constants, and preparation of aliphatic compounds. Pre-requisite Chemistry 31-32, or 31-32 in progress.

Two hours credit. First term.....Prof. Emigh

CHEMISTRY s52—Experimental Organic Chemistry

Experiments in the preparation of aromatic compounds and coal tar dyes. Follows Chemistry 51.

Two hours credit. Second term.....Prof. Emigh

Chemistry s61—Physical Chemistry

This course is planned for chemistry majors and pre-medical students who desire credit beyond their medical school requirements. Atomic structure, gas laws, matter in the solid and liquid states, elementary thermodynamics, properties of solutions and thermochemistry. Incomplete without Chemistry 62. Pre-requisite, Chemistry 21-22.

Three hours credit. First term.....Mr. Galloway

CHEMISTRY s62—Physical Chemistry

Continuation of Chemistry s61. Chemical kinetics, homogeneous equilibrium, electrical properties of solutions, phase rule studies, and colloid chemistry. Pre-requisite, Chemistry 21-22.

Three hours credit. Second term.....Mr. Galloway

CHEMISTRY s71—Quantitative Analysis

Gravimetric analysis with knowns and unknowns in metals and acid radicals.

Three hours credit. First term.....Prof. Emigh

CHEMISTRY s72—Quantitative Analysis

Continuation of Chemistry s71, Volumetric analysis with knowns and unknowns in acidimetry and alkalimetry, oxidation and reduction, and iodimetry.

Three hours credit. Second term.....Prof. Emigh

Economics

ECONOMICS s21-22—Economic Principles and Problems

This is the introductory course in Economics and is designed to provide a general survey of the subject for those who take but one course in the field and to prepare others for advanced courses. It is not open to freshmen. Students will not be admitted to the second half without credit for the first, or be given credit for the first without the second.

Six hours credit. First and Second terms
.....Dr. Wallace

ECONOMICS s42—Economic Geography

A survey course covering the distribution of basic resources throughout the world, with special attention to population, minerals, plants, animals, climate, physiography, international trade, and causes of international conflict. Approximately the first half of the course is devoted to North America and the other half to the rest of the world. A materials fee of fifty cents is charged each student. No pre-requisite.

Three hours credit. First term.....Mr. Ricketts

ECONOMICS s92—Business Finance

A comparison of individual proprietorships, partnerships, and corporations, and of the different types of corporate securities, with major emphasis on methods of providing fixed and working capital for the promotion, operation, and expansion of corporations. Pre-requisite, Economics 21-22. Students are also advised to take Economics 61 before taking this course.

Three hours credit. Second term.....Dr. Wallace

Education

EDUCATION s21—Tests and Measurements

An introductory course designed to give the student a working knowledge of the techniques and procedure involved in testing and measuring in the elementary and high schools. Laboratory fee, \$1.50.

Three hours credit. First term.....Prof. Haynes

EDUCATION s92—Special Methods of Teaching in the Elementary School

This course includes study of the subject matter and methods of instruction in the elementary school.

Three hours credit. Second term.....Prof. Haynes

EDUCATION s31—General Methods of Teaching and Learning

This course is designed to introduce to the students the fundamental principles of teaching and learning in the elementary and high school.

Three hours credit. First term.....Prof. Haynes

EDUCATION s12—Educational Psychology

This course applies the facts and principles of Psychology to education and the work of the teacher. Same as Psychology s12.

Three hours credit. Second term.....Prof. Haynes

English

ENGLISH s21—English Literature

A survey of English literature from the beginnings to the eighteenth century, with especial emphasis on major writers. Pre-requisite, English 11-12.

Three hours credit. First term.....Dr. White

ENGLISH s22—English Literature

A continuation of the survey of English literature from the beginning of the eighteenth century through the nineteenth century. Pre-requisite, English 11-12.

Three hours credit. Second term.....Dr. White

ENGLISH s42—Tennyson, Browning, and Arnold

A study of the poetry and prose of the great Victorian poets. Library readings and a term paper are required. Pre-requisite English 11-12, 21-22.

Three hours credit. First term.....Dr. White

ENGLISH s72—Modern Drama

A study of contemporary British, American, and Continental drama. Approximately fifty plays are assigned for reading. Pre-requisite, English 11-12, 21-22

Three hours credit. Second term.....Dr. White

French

FRENCH s11-s12—Intermediate French

French s11-s12 is intermediate or second year French. The grammar is reviewed with special attention to irregular verbs and to idioms. Nineteenth century texts are read.

Six hours credit. First and Second terms.....
.....Prof. Sanders

Geology

GEOLOGY s11—Lithologic and Physiographic Geology

A study of mineral crystalline forms, chemical composition, occurrence, and uses, with a description of the kind and arrangement of rock masses. A study of the mechanical and chemical effects of the atmosphere, water, heat, and life. Special attention will be given to such phases of the subject as the work of glaciers and of volcanoes.

Three hours credit. First term.....Dr. Sullivan

German

GERMAN A1-A2—Beginner's German

This course is designed to give beginners the fundamentals of grammar and syntax together with easy reading exercises. The course may be used as a junior, or senior elective, or may be applied to entrance units in satisfaction of language requirement.

Six hours credit. First and Second terms.....
.....Dr. Hamilton

History

HISTORY s21—History of the United States—1492-1850

A general course in American History, treating of the European background of colonial life, the revolution, the constitution, and new government.

Three hours credit. First term.....Dr. Moore

Millsaps College

HISTORY s22—History of the United States—1850-1941

A continuation of History s21, treating of the Civil War, Reconstruction, and the history of the United States to the present time.

Three hours credit. Second term.....Dr. Moore

HISTORY s51—Problems in Modern History

A study of such present day problems in international relations as Nationalism, Imperialism, Militarism, and Propaganda. It follows the general outline of the SYLLABUS ON INTERNATIONAL RELATIONS, by P. T. Moon.

Three hours credit. First term.....Dr. Moore

HISTORY s52—History of Europe—1914-1941

A continuation of History s51. The causes of the World War, and a broad view of the history of Europe since the war.

Three hours credit. Second term.....Dr. Moore

Latin

LATIN s11-s12—Vergil

Translation of part of the Aeneid. This course is for students who have had three years of high school Latin.

Six hours credit. First and Second terms.....
.....Dr. Hamilton

Library Science

LIBRARY SCIENCE s11—School Library Administration

The course covers the administrative problems of the school library as distinguished from the problems of cataloguing and book selection. Among these are the objectives of the school library, circulation problems, duties of the librarian, and staff, equipment of the library and its business practice.

Three hours credit. First term.....Miss McIntosh

LIBRARY SCIENCE s12—Cataloguing and Classification

A study of the Dewey Decimal classification system and the principles of cataloguing adapted to the needs of the school library catalogue. Laboratory practice in the cataloguing of books will be given. Materials fee, \$1.50.

Three hours credit. Second term.....Miss McIntosh

LIBRARY SCIENCE s21—Adolescent Literature

Introduction to the tools of high school book selection; discussion of the problems encountered in the choice of books for the adolescent; required general reading.

Three hours credit. First term.....Miss McIntosh

LIBRARY SCIENCE s22—Children's Literature

Introduction to the tools of children's book selection; lectures on the history and types of children's literature; required reading and examination of the more important books.

Three hours credit. Second term.....Miss McIntosh

Millsaps College

LIBRARY SCIENCE s32—Reference and Bibliography

Examination and discussion of the leading reference books in all fields of knowledge with questions and exercises requiring their use; instruction in the location of bibliographical material and in bibliographical forms.

Three hours credit.....Miss McIntosh

Mathematics

MATHEMATICS s11—College Algebra

Functional relation in two real variables. The equation; simultaneous linear, quadratic. Series. Mathematical induction, binomial theorem. Theory of equations: rational, irrational roots. Permutations, combinations, probability.

Three hours credit. First term.....Dr. Mitchell

MATHEMATICS s12—Plane Trigonometry

Definition of the trigonometric functions, their properties, graphs, relations, identities, equations. Analysis. Solution of right and oblique triangles, logarithmic computation.

Three hours credit. Second term.....Dr. Mitchell

MATHEMATICS s21—Plane Analytical Geometry

Rectangular and polar coordinate systems. Discussion of curves by means of this equation. The straight line and the circle, systems of curves. The conic sections, transformations of co-ordinates. The general equation of the second degree. Loci and higher plane curves.

Three hours credit. First term.....Dr. Mitchell

MATHEMATICS s22—Differential Calculus

Fundamental notion of limit, continuity. Differentiation of algebraic and transcendental functions. Applications: slope, curvature, curve tracing, maxima, minima, velocity, acceleration, motion, series, expansion of functions.

Three hours credit. Second term.....Dr. Mitchell

Physical Education

PHYSICAL EDUCATION s31—Theory of Play

This includes a study of the historical background of play, theories of play, the need for play, and the means and methods of administering play. Part of the time will be spent in actual play activities, and the other part in classroom discussion.

Three hours credit. First term.....Miss Decell

PHYSICAL EDUCATION s32—Hygiene

This course includes a study of personal and community hygiene.

Three hours credit. Second term.....Miss Decell

PHYSICAL EDUCATION s41-s42 — Recreational Leadership

This course considers the characteristics of a good leader, the correct ways of supervising recreational programs, and materials that might be used for such. Four hours credit will be offered for this classroom work, but if six hours credit is desired, the student may take this and s51-s52, which is two hours credit in activity.

Four hours credit. First and Second terms.....
.....Miss Decell

PHYSICAL EDUCATION s51-s52 — Recreational Leadership

See s41 and s42. s51 and s52 are the activity parts of the course and carry two hours credit. However, it carries six hours credit when taken with the classroom work, s41 and s42. The course includes activities on the playground and in the gymnasium.

Two hour credit. First and Second terms....Miss Decell

Physics

PHYSICS s11—General Physics

The course is designed to cover the general principles of mechanics of solids, liquids and gases, and the general principles of heat and sound. Pre-requisite, Mathematics through plane trigonometry.

Three hours credit. First term.....Mr. Galloway

PHYSICS s12—General Physics

This course consists of a study of magnetism and electricity, and light. Courses 11 and 12 must be taken to satisfy the required work in physics.

Three hours credit. Second term.....Mr. Galloway

PHYSICS s21—Premedical Physics

A laboratory course designed, in conjunction with Premedical Physics s22, to meet the needs of those students who expect to enter a medical school where eight semester hours are required for admission. The course is in substance an additional laboratory period to courses 11 and 12. Pre-requisite, Mathematics through plane trigonometry. One laboratory period.

One hour credit. First term.....Mr. Galloway

PHYSICS s22—Pre-medical Physics

This course is a continuation of course s21. Both 21 and 22 must be taken to satisfy the pre-medical requirement. One laboratory period.

One hour credit. Second term.....Mr. Galloway

Psychology

PSYCHOLOGY s11—General Psychology

An introduction to the methods and findings of modern, scientific psychology. Materials fee, fifty cents.

Three hours credit. First term.....Dr. Musgrave

PSYCHOLOGY s102—Applied Psychology

A study of the psychological factors related to human efficiency in work and play. This course is planned for students expecting to enter professions other than teaching. Materials fee, fifty cents.

Three hours credit. Second term.....Dr. Musgrave

PSYCHOLOGY s41—Mental Hygiene

A study of the psychology of adjustment, with special emphasis on the principles of sound mental health. Pre-requisite, Psychology 11 or permission of the instructor. Materials fee, fifty cents.

Three hours credit. First term.....Dr. Musgrave

PSYCHOLOGY s71—Vocational Psychology

A study of the factors which influence choice of occupation, and problems of adjustment to the working world. Planned especially for teachers who also serve as vocational counsellors, and for students interested in personnel work.

Three hours credit. Second term.....Dr. Musgrave

Public Speaking

PUBLIC SPEAKING s31—Public Speaking and Reading

Daily practice in the delivery of prepared and extempore speeches, and in poetry reading. Supervised training in diaphragmatic breathing and voice motivation as the basis of the correlation of words with tone, of verbal with vocal expression.

Three hours credit. First term.....Mr. Ramsey

PUBLIC SPEAKING s32—Public Speaking and Reading

A continuation of Public Speaking s31.

Three hours credit. Second term.....Mr. Ramsey

Philosophy

Philosophy s91—An Introduction to Social Philosophy

Reading and discussion of the chief works in social ethics by representative philosophers of the ancient and of the modern periods. No pre-requisites. This course meets the philosophy requirement for the A.B. degree, when followed by Philosophy s92.

Three hours credit. First term.....Mr. Ramsey

PHILOSOPHY s92—Philosophical Ideas in Modern Literature

The chief problems of recent philosophical thought will be studied through the medium of the writings of the men who have been most influential in determining the intellectual climate of our era. The works of Tolstoy, Kant, Nietzsche, Schopenhauer, Ibsen, Hegel, and Shaw will constitute the basis of the course. The student may do further credited reading in H. G. Wells, Dostoyevsky, and Thomas Mann. No pre-requisite. When taken with Philosophy s91 meets the philosophy requirement for the A.B. degree.

Three hours credit. Second term.....Mr. Ramsey

Religion

RELIGION s11—Introductory Bible

An introduction to the necessary background for the study and appreciation of the Bible and a study of the religious development and contribution of the Hebrews as revealed in the Old Testament.

Three hours credit. First term.....Miss Thomas

RELIGION s12—Introductory Bible

An introduction to the necessary background for the study and appreciation of the New Testament, and a study of the New Testament with a view to achieving some insight into the meaning of the Christian religion.

Three hours credit. Second term.....Miss Thomas

RELIGION s21—The Life and Teachings of Jesus

A study of the Gospel, emphasizing the teachings of Jesus and their application to problems of the individual and society today.

Three hours credit. First term.....Miss Thomas

Millsaps College

RELIGION s32—Methods of Christian Education

A study of methods of Christian character education, including the use of materials and agencies contributing to the achievement of dependable Christian behavior.

Three hours credit. Second term.....Miss Thomas

Sociology

SOCIAL SCIENCE s31—Principles of Sociology

A study of the organization and processes of human society.

Three hours credit. First term.....Dr. Wharton

SOCIAL SCIENCE s32—Social Problems

A survey of social problems and their adjustment in modern society. Emphasis is placed on problems of population, distribution of wealth and income, race relations, the family, crime, health, social control, and democracy.

Three hours credit. Second term.....Dr. Wharton

SOCIAL SCIENCE s61—Rural Sociology

A study of rural society and its problems. Special attention is given to the effects of a changing social and economic order on the rural family, church, and school.

Three hours credit. First term.....Dr. Wharton

SOCIAL SCIENCE s62—Public Welfare Administration

THIRTIETH ANNUAL SUMMER SESSION MILLSAPS COLLEGE

Jackson, Miss.

Date_____

Name_____

(Last) (First) (Middle)

Home address_____

(City) (State)

High School attended_____

Year graduated_____

Present occupation_____

Courses desired_____

I would like to reserve the following living accommodations for the 1941 Summer Session_____

I am enclosing \$5.00 to cover registration fee. I understand that when I register at Millsaps College and am accepted as a student in the 1941 Summer Session, this fee will be credited to my account with the college.

I also understand that if I notify Millsaps College in writing before May 20 that I cannot attend the 1941 Summer Session, that this \$5.00 registration fee will be returned to me.

For additional information write
RAY S. MUSGRAVE, Director
Millsaps College Summer Session
Jackson, Miss.
